## Career Objective

Experienced PHP and full-stack web developer with over 15 years of experience in backend and frontend technologies. Skilled in building scalable web applications, upgrading legacy systems, and integrating payment and data management solutions. Seeking opportunities to contribute technical expertise in modern web development and system optimization.

## Professional Experience

PHP Developer | Innovins • Remote | Jul 2025 – Aug 2025

- Developed a security login feature utilizing QR codes and GPS for enhanced authentication.
- Worked on Indian projects involving unloading and ERP management of gas tanks.
- Contributed to an eCommerce website by integrating a content management system.

PHP Developer | Innoplix Pvt Ltd • Pune | Mar 2025 – May 2025

- Upgraded erupaiya.com from CodeIgniter 3 to CodeIgniter 4, improving performance and security.
- Developed a payment disbursement system to streamline transactions.
- Enhanced overall site functionality and maintainability.

Web Developer | FinLeap Finserver Pvt Ltd • Pune | May 2022 – Jan 2025

- Developed a comprehensive Loan Origination System with modules for loan disbursement, supply chain management, and document cloud storage.
- Collaborated across teams to deliver scalable backend services and user-friendly frontends.

Freelance Web Developer | Upwork.com | Sep 2010 – May 2023

- Completed over 140+ projects in PHP, CakePHP, CodeIgniter, JavaScript, and MySQL.
- Delivered custom web applications, API integrations, and CMS systems for global clients.
- Maintained long-term client relationships with consistent high ratings.

Web Developer | SmartData Inc • Nagpur | Jan 2008 – Apr 2010

- Developed a mailing list application for emerges.com, implementing MySQL stored procedures for large-scale data imports.
- Contributed to the dyggm social networking project, improving web performance and UX.

PHP Developer | Linosys Solutions • Pune | Jan 2007 – Dec 2007

- Worked on a medical transcription project involving backend data management.
- Supported multiple small-scale web development initiatives.
